PROFESSIONAL SUMMARY

Full-stack software engineer with 5+ years of expert-level React and Node.js experience building mission-critical, user-facing systems — from a live custom-clothing e-commerce platform to a real-time stock-market PWA. Comfortable leading projects from concept through launch: designed REST APIs and Node.js services, delivered pixel-accurate React UIs from Figma for demanding agency clients, and shipped features that directly moved revenue and conversion. Strong cross-team collaborator (reported directly to CTOs, trained Ops teams) with an Agile, deploy-often working style and a BSc in Computer Engineering.

CORE COMPETENCIES

React (expert)

Node.js (expert)

REST API Design

Agile Delivery / Weekly Deploys

Cross-team Collaboration

GitHub & Code Review

Scalable Product Architecture

React Native (iOS & Android)

WORK EXPERIENCE

MTailor

Sep 2022 – Present

Software Engineer — US Remote (custom-clothing e-commerce)

- Built user-facing product features on a mission-critical e-commerce platform, including a 3D visualisation feature (video overlay + ffmpeg) that increased buyer conversion
- Implemented Express Shipping from concept through launch, generating an additional \$40 in revenue per order
- Led the zero-downtime migration of 20+ production applications from Parse/MongoDB to Firebase/GCP, deploying incrementally in small, reversible releases while reporting directly to the CTO
- Implemented a real-time two-way sync between MongoDB and Firestore using Node.js and Google Pub/Sub; saved the company \$5,000/month by consolidating cloud services

Mind2matter

Jan 2022 – Jul 2022

Software Engineer — US Remote (digital agency)

- Delivered pixel-accurate React UIs from Figma designs under tight timelines for a US agency with demanding clients
- Built Node.js backends (including Web3/DeFi services) supporting client applications end to end

Dr Wealth

Aug 2021 – Jan 2022

Software Engineer — Singapore Remote (fintech PWA)

- Extended REST APIs with Express.js and Firebase Cloud Functions for a real-time stock-price PWA; built responsive React/Tailwind pages presenting dense market data
- Built batch jobs querying 2+ million Firestore records to keep customer-facing prices current from Morningstar APIs

CodeBits

Jan 2020 – Jul 2021

Software Engineer (Team Lead) — Uganda

- Led a team of 4 developers building legal-tech systems for NGOs, running code review and pair-programming practices from concept through launch
- Shipped a cross-platform mobile app with React Native and Expo (iOS & Android) with Firebase push notifications
- Architected a scalable microservices backend using Apache Kafka, Docker, and Kubernetes; built a USSD service talking to a Node.js backend via gRPC

PROJECTS

Real-time Pub/Sub Sync Pipeline

Live MongoDB ↔ Firestore two-way sync that kept 20+ user-facing apps serving production traffic during migration — zero downtime.

Node.js · Google Pub/Sub · Firestore · MongoDB

Healthcare WhatsApp Chatbot

Prescription OCR assistant integrating OpenAI and Google Vision through the WhatsApp Business API.

Node.js · OpenAI API · Google Vision · WhatsApp Business API

Marketplace Recommendation Engine

Collaborative and content-based filtering engine in MongoDB for service-provider matching.

Node.js · MongoDB

EDUCATION

BSc Computer Engineering — Makerere University

2018 – 2022

Kampala, Uganda

SKILLS

Proficient: Node.js, React, JavaScript/TypeScript, Firebase, GCP, Python, MongoDB, SQL, HTML, CSS, Git, Linux

Intermediate: Go, AWS, Rust, React Native **Languages:** English, Kiswahili
