PROFESSIONAL SUMMARY

Backend developer with **6+ years writing Node.js and JavaScript in production**, all of it **remote** with intercontinental teams in the US, Singapore and Uganda. I work **independently and proactively** inside small, self-directed teams: at MTailor I owned the **zero-downtime migration of 20+ production applications** to Firebase/GCP, reporting straight to the CTO, and designed the Node.js + Pub/Sub sync that kept two live databases consistent throughout. I have built **microservices on Kafka, Docker and Kubernetes**, worked across **AWS and GCP**, and **led and mentored a team of 4 developers**. I choose designs for performance, scalability and long-term maintainability, not just for the current ticket.

CORE COMPETENCIES

Node.js & JavaScript (6+ yrs) | Independent Remote Delivery | Scalable, Maintainable Backend Design | Microservices (Kafka, gRPC)

AWS / GCP / Docker / Kubernetes | Mentoring & Team Leadership | Git & GitHub Workflows | Zero-Downtime Migrations

WORK EXPERIENCE

MTailor

Sep 2022 – Present

Software Engineer · US Remote · e-commerce

- Owned the end-to-end migration of **20+ production applications** from Parse/MongoDB to Firebase/GCP with **zero downtime**, working independently and reporting directly to the CTO.
- Designed and built **real-time two-way sync** between MongoDB and Firestore in **Node.js** on Google **Pub/Sub**, keeping two live production databases consistent under parallel traffic.
- Moved all services off **AWS** (S3, EC2, EBS) to **GCP**, including an S3 → Google Cloud Storage migration in Python, saving **$5,000/month**.
- Shipped product features end to end: Express Shipping (**+$40 revenue per order**) and a 3D visualisation feature built on ffmpeg video overlay that increased buyer conversion.

MTailor

Mar 2022 – Jul 2022

Backend Contractor · US Remote

- Built the Node.js migration script that read from MongoDB, ran complex processing logic and wrote to Firestore.
- Wrote developer documentation on the new Firebase SDKs (Node.js and Python) so engineers could self-serve, and trained the Ops team on the new dashboard and backups.

Dr Wealth

Aug 2021 – Jan 2022

Software Engineer · Singapore Remote · fintech

- Extended backend APIs in **TypeScript** on Firebase Cloud Functions and **Express.js** (Heroku) for a real-time stock-price PWA.
- Built ad-hoc jobs over **2M+ Firestore records** to keep customer prices current from Morningstar APIs.

Mind2matter

Jan 2022 – Jul 2022

Software Engineer · US Remote · agency

- Built **Node.js** backends (Web3) for agency clients and delivered React UIs from Figma under tight timelines, reporting to the CTO.

CodeBits

Jan 2020 – Jul 2021

Software Engineer / Team Lead · Uganda Remote

- **Led and mentored a team of 4 developers** building legal-tech systems for NGOs in Uganda.
- Architected a **microservices** backend for FIDA Uganda's case management app on **Apache Kafka, Docker and Kubernetes**, with NATS Streaming and gRPC between services.
- Built a USSD service talking to a **Node.js** backend via gRPC, and a React Native + Expo app with Firebase push notifications.

PROJECTS

Real-time Pub/Sub Sync Service Node.js

Two-way MongoDB↔Firestore sync running under parallel production traffic across 20+ applications during a zero-downtime migration.

Node.js · Google Pub/Sub · MongoDB · Firestore

FIDA Case Management Microservices architecture

Event-driven microservices backend for an NGO case management system, built and delivered with a team of 4.

Node.js · Apache Kafka · Docker · Kubernetes · gRPC

EDUCATION

B.Sc. Computer Engineering — Makerere University 2018 – 2022

Kampala, Uganda

SKILLS

Languages: JavaScript, TypeScript, Python, SQL, Go (intermediate), Rust (intermediate)

Backend: Node.js, Express.js, REST APIs, gRPC, Microservices, Serverless (Firebase Cloud Functions)

Data & Messaging: MongoDB, Firestore, Google Pub/Sub, Apache Kafka, NATS Streaming

Cloud / Infra: GCP, Firebase, AWS (S3, EC2, EBS — intermediate), Docker, Kubernetes, Git, GitHub, Linux

Frontend: React, React Native, Tailwind, HTML, CSS **Spoken:** English (fluent), Kiswahili
